CONDITIONS OF SALE

- TERMS:** 5%/10 net 30 days for established accounts. Others are C.O.D. All accounts unpaid after 30 days will be considered delinquent and will be subject to a 1-1/2% per month service charge. (1-1/2% service charge is the equivalent of an annual percentage rate of 18%).
- DELIVERY:** All prices on catalog item are F.O.B. PLEATCO.
- FREIGHT CLAIMS:** Every reasonable precaution is exercised in packing, but PLEATCO is not responsible for goods lost or damaged in transit. Claims to recover such loss or damage must be filed with the common carrier by the purchaser within the time limit allowed by such carrier.
- RETURNED GOODS:** Return shipments will not be accepted by PLEATCO unless specifically authorized by PLEATCO Customer Service. Pleatco reserves the right to examine the product defect before authorizing return.
- WARRANTY:** PLEATCO Cartridges are guaranteed against defects resulting from defects in materials and workmanship. The liabilities of PLEATCO are limited solely and exclusively to replacement and do not include any liability for incidental, consequential or other damage of any kind whatsoever. Warranty does not include shipping charges, labor, installation or any other losses or expense incurred in operation or installation.

Pleatco's Utility Patent

RE-UZ-A CORE™ US Patent # 5,211,846 (RC-PH Series)

Pleatco's Unique Posi-Grip® Finger Handle Top

US Patent # DES 306, 640 (T-4) (T-9) (T-11) (T-12) (T-18)

Side Urethane Loop Handle™

US Patent # DES 402, 735 (T-8)

Plastic Flexi®-Handle (T-14)

Plastic Flexi®-Handle w/Air Relief (T-13)

How to use PLEATCO'S Dimensional Cross Reference

All Pleatco Cartridges are arranged by size based on the cartridges outside diameter (OD). Furthermore at a particular OD measurement each cartridge is then listed according to its length (from shortest to longest). The cartridge length is determined by measuring the distance in inches from end cap to end cap **INCLUSIVE** of any handle or extension, but **EXCLUSIVE** of any removable bottom adapters

FILTER CARTRIDGE CLEANING INSTRUCTIONS FOR BAQUACIL USERS

The following Baquacil® Cleaning Instructions were furnished to Pleatco by Zeneca, Inc. Baquacil®, Baqua Clean®, and Baqua Shock® are registered trademarks of the Zeneca Corporation.

Special care must be taken when cleaning filter cartridges used in a swimming pool or spa using Baquacil as a sanitizer. Because of the way Baquacil works, the filter element must be cleaned more thoroughly and more frequently than in a chlorine system. If extreme care is not taken to completely remove all residue from the filter media a buildup will occur. This buildup will significantly shorten the life of the filter element.

Unlike chlorine which oxidizes the bacteria in the water, polyhexamethylene biguanide (PHMB) based sanitizers destroy the bacterial cells. PHMB, the active ingredient in Baquacil, locates and binds to bacterial surfaces. It then attacks and overcomes the outer bacterial cell wall. Once this wall has been comprised, the cytoplasmic membrane, the inner cell membrane is destroyed. This destruction allows the cell contents to disperse into their surrounds where they are likely broken down into their elemental parts by the non-chlorine oxidizer Baqua Shock.

In addition, Baquacil is a mild coagulant which combines bacterial cells as well as other small particles contributed to the environment, bathers, etc. into particles large enough to be trapped by the filter. In comparison with all other trapped contaminants in a typical pool or spa the amount of bacterial cells that are deposited on the filter is minimal. The resulting deposit is a gray sticky film which can only be removed with Baqua Clean. If TSP or any TSP type cleaner is used prior to stripping the film, the cleaner and the gray film will combine to form a gum-like substance. Once this occurs, the substance cannot be removed from the media and the filter cartridge must be replaced.
